Hurricane-Rated Steel Replica Windows by WINCO

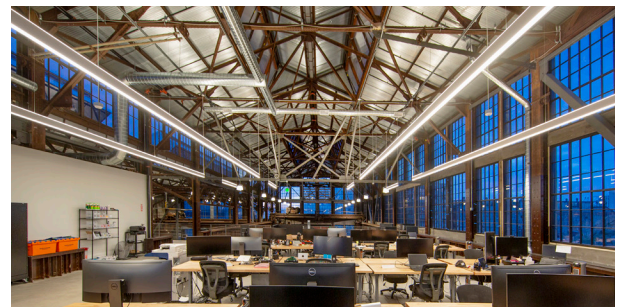

Where Style Meets Strength

PROVEN CONSTRUCTION

WINCO's hurricane-rated 3250 Steel Replica Windows are:

- Manufactured with heavy aluminum frames, making them significantly more cost effective than real steel
- Factory-glazed with a manufacturer's warranty
- Laminated to buffer noise, wind and water infiltration while providing energy savings with a U-value of 0.33 BTU/F-Hr-Ft² when glazed with Solarban 60
- Available in fixed, projected, and casement with a 3-1/4" frame depth 1/8" wall thickness for superior structural performance and durability
- Available with historic grid profiles, including applied grids and simulated divided lights
- Optional accessory line of sub-frames, mullions, panning and trim to complete the customized look

For any architectural style, make the right window choice. Contact WINCO Windows for on-trend aesthetics and high performance.
