

Thermal, Durable, Versatile - Our 3600 Slider is Up to Any Task

Winco's 3600 Series Slider is a sliding, fixed and unitized storefront window system that has been successfully used in many public and private developments, including schools, hospitals, retail centers and condominiums. Because it provides years of low maintenance performance at a competitive price, the 3600 Slider is frequently specified for new construction projects.

Numerous advantages include:

- ANSI/AAMA-rated AW-50 for air, water and structural performance 3-1/4" frame depth with 1/16" (.062) wall thickness main frame and sash; .080 thick aluminum sill for superior function and durability
- Azon Azo Braided thermally broken frame and sash, backed by a 10-year warranty against thermal break shrinkage
- Stainless steel self-lubricating roller and track cover
- 4-sided, heavy fin seal wool pile exterior weather-strip protects against air and water leakage
- Interior sash has rigid vinyl weatherstripping for ease of operation
- Fixed frame options include a removable deep glazing bead for installing through the frame with no exposed fasteners
- Equal leg frame members for use in storefront or curtain wall applications
- Accommodates glazing thicknesses of 3/16", 1/4" and 1"
- Dual glazing available with optional integral blinds for light control
