

Plug and Play: Pre-Glazed Systems Offer Simplicity

Winco's pre-glazed storefront and curtain wall systems could save you time and money on your next project. Here's why:

- Manufactured, assembled, tested and certified to AAMA architectural grade standards
- Less on-site labor and less leftover scrap material to be hauled away
- Less room for error with a finished system
- Sealed for durability and security against exterior vandalism
- Average product lifespan of 20 to 40 years with regular maintenance
- Winco Warranty covers the entire unit glass, glazing, finish, material including large unitized spans, and workmanship of the factory-fabricated unit - when professionally installed

Winco's pre-glazed systems provide ultimate design flexibility:

- Available in 2" to 4-1/2" depths
- Operable vents available in multiple configurations
- Infinite variety of colors and finishes availability

*Pre-glazed storefront systems are ideal for retail, educational and commercial buildings.
