

# Winco Shipping Standards

FOR MORE THAN 100 YEARS, Winco has worked to create customized window solutions. That's why we take pride in securing your windows carefully. Here is what to expect with your delivery:

- Smaller jobs have all hardware and trim packaged conveniently for the customer in the crate
- Full truckload projects are quoted based on 3 hour unloading time. Please advise if you will need to schedule additional time to prevent retention charges.

“We take pride in packing and shipping our products to our customers. From small to large projects, crating to palletizing, we will work with you to make sure your windows get there safe and securely.”

-Andre Ivy, Shipping Manager
