

Rampart Homewood Suites

New Orleans, LA

Winco Brings Historic Charm to the French Quarter

Nestled in the heart of the iconic French Quarter in New Orleans, the new Homewood Suites blends right into the storied neighborhood with its vintage historic replica windows. Winco's 1150S hurricane-resistant windows offer safety from the city's sometimes fierce weather, acoustic protection from surrounding nightlife, and the latest in energy-efficient performance. The 1150S Series has a unique integral beveled glazing stop allowing profiled and flat applied muntin grids to nest inside of the vertical plane of the window.
